GreenWay Fence & Railing Supply is the choice distributor for Regis aluminum fence products. GreenWay is a family owned business in Lancaster County, PA and services a comprehensive network of wholesale dealers and contractors. Regis brand of aluminum fence has the reputation of strength, quality and longevity. See for yourself. Ask your local dealer for a sample.

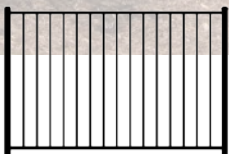

GreenWay offers more than just a quality product. Pulling orders accurately & timely and wrapping your products in weather proof wrapping are just a part of what we do here at GreenWay to make sure “you” receive a clean, quality product. We take pride in making sure you, the end user, are happy with the product when installed on your property.

On behalf of GreenWay Fence & Railing Supply and your select dealer we wish you many years of beauty and enjoyment from your new Regis fence.

Standard Sections Rack 22" in 6'

4 Fence Models, 2 Heights & 1 Color Option

Commercial & Residential Gates

3233 55" H
DBL Dr
Continuous Arched

Beauty, strength, and durability defines how our aluminum gates are built. A special welded U-frame design eliminates the need for bracing on single gates up to 12' wide (can be ordered without the U-frame as well). Gates are made to match the Regis 3000, 4000, and 5000 series fence in either single, double, or Cantilever style. Gates meet ASTM standards for automatic gate openers.

POWDER COATING

1

The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

2

The product enters a heated acidic cleaning stage to remove extrusion debris and fabrication oils.

3-6

CLEAN: City water rinse
CLEANER: Recycling reverse osmosis water rinse
CLEANEST: Pure reverse osmosis water rinse
SEALER: Dried-in-place aluminum sealer

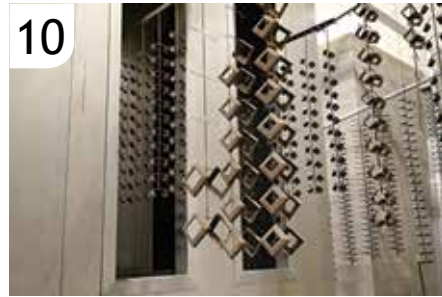

7-8

A 200 MPH air blast removes water drops from the pre-treated aluminum. A convection oven completes the dry-off process.

9

Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

10

The powder coating is then bonded and adhered to the aluminum sub-straight in a 400 degree cure stage.

The powder coating application booth produces zero VOC emissions. Powder is stored and applied in a climate controlled positive pressure environmental room. Ten pre-treat system titration checks twice per shift maintain system parameters and ten QC checks are completed every hour on product coming off the powder-coating line. Parts are not touched by human hands during the pre-treat, dry-off, application and cure process to maintain ultimate cleanliness of powder-coated parts.

DSI is a PCI 4000 certified and verified AAMA 2604-13 and AAMA 2605-13 compliant powder coating applicator. The powder coating process is accredited by the American Architectural Manufacturing Association and the Powder Coating Institute. Our powder coating is custom blended from a Super Durable Polyester TGIC (Triglycidyl Isocyanurate) resin-base, using premium pigmentation to meet AAMA 2604-13 specifications. Our AAMA 2605-13 is a fluorocarbon polymer resin system.

Designer Fence

*Designer Fence 72" Tall
TB2 Frame/Sierra Blend In-Fill*

Design your fence in style! Want some privacy? Use the Designer Fence for full privacy in your backyard or to complement your Regis fence. Designer Fence uses an aluminum post & rail available in all 12 aluminum colors. Any color vinyl T&G picket can then be used as the privacy panel (or in-fill). 20+ vinyl in-fill colors available in smooth or wood grain texture. Matching gates are available in an adjustable width design. All Designer Fence comes with a Limited Lifetime Warranty.
