DECK LIGHTING

## LET THERE BE *Light*

When it comes to designing attractive, high quality, and energy efficient outdoor lighting for decks, fences, docks, and other outdoor environments, Aurora Deck Lighting is an industry leader!

## BRIGHT IDEAS COURTESY OF *Aurora*

Deck builders, fence builders, remodelers, and homeowners look to Aurora for innovative lighting options that coordinate seamlessly with wood or composite materials. Our lights are available in a variety of designs: from classic lantern styles to high profile designs, and sleek, modern LED lights. We also offer the convenience of all-inclusive kits that make it easy to install energy efficient recessed lighting in decks or steps, as well as versatile strips of bright LEDs under deck rails, patio covers, or stairs.

With every light we offer, one factor remains the same: our lights look great, not only when the sun goes down, but all day long!

## THE FINISHING *Touch*

All Aurora Deck Lighting is made of rust-free aluminum, which is powder coated for a long-lasting finish. Aurora Deck Lighting is easy to install, and is available in low voltage, line voltage, and solar options. Our lights are available in 7 designer colors, and they come in ten different sizes to fit posts from 2" to 6-1/2". Adapters are also available for mounting our post cap lights directly to deck or porch rails. With Aurora, there's a light for every application!

### POPULAR CELESTIAL LIGHTING FROM *Aurora*

- ZENA** GO GREEN with innovative Solar technology!
- MACIMAE** Beautiful frosted radiance illuminates all night long
- NEPTUNE** A sophisticated multi-layered design which adds long-term appeal
- VENUS** Equipped with 12 bright LED lights, to create a radiant glow
- POLARIS** Solar lighting with a striking detailed lantern styling
- TITAN** Glass options add style to a layered rectangle design
- ORION** Geometric framework adds interest to this lantern light
- SIRIUS** Has a traditional appeal with its pyramid shaped design
- TRITON** Blends beautifully with numerous landscape themes

## MULTI-LAYERED DISTINCTION... *Our Nova Light's*

Showcase an attractive flat top post cap light, while displayed by a multi-layered tier design that adds architectural distinction, and works with any style home.

Four cool white LED lights are in the corners of the post cap to highlight outdoor living spaces, by showering the posts and area below with accent lighting.

*The Nova Deck Light... fits posts in sizes ranging from 3 1/2" to 6 1/2"!*

# THE ODYSSEY

## Aurora Deck Lighting's DESIGN TEAM...

Has brought the highest standards in LED lighting options with the Odyssey LED Strip Lighting Kit!

Each kit comes complete with 4 strips of LED lights (choose from 4 lengths up to 48" long), installation wire connectors, the LED driver box with timer, remote driver, and remote control.

### EXPAND THE LOOK Choose Your Length...

Each kit comes with 4 strips -- 1.5W per foot.

- Choose from...
- 18" • 24" • 36" • 48" • 72"
- Expansion strips are available!

## DECK LIGHT Drama...

Use Odyssey lights to create a dramatic curtain of light that shines down from under deck rails, stair rails, steps, soffits, patio covers, gazebos, or the underside of a deck. These long lasting tiny LED light bulbs, in their chain, puts out a beam of light with a 120 degree radius.

Up to 20 feet of strip lights can be powered by a single LED Driver Box.

### LED STEP RISER HOUSING!

- Available in Black, Bronze, White

Odyssey LED STRIP LIGHTING...

*Flexible design strip provides for easy adaptability in how and where they are installed and concealed in the step or rail.*

# THE PHOENIX

## LIGHT IT UP WITH *Phoenix*...

Our Phoenix LEDs are just 1-1/8" wide. Their tiny size provides versatility for installing them flush with deck surfaces, for a seamless install that illuminates borders, or stairs for function and style. Additional lights may be purchased, either in pairs or bundles of ten, and up to 30 lights can be run off of one LED driver box.

### *Long Lasting LEDs..*

Our .35W LED bulbs are rated to burn bright for years without replacement.

## THE *Phoenix Kit*...

Our kits include ten cool, warm or blue white LED bulbs, LED driver box, connective wire, remote control driver box with a handy remote control.

### THE BIT *For a Perfect Fit...*

A specially designed drill bit is available to make drilling the perfect hole, an easy one-step process.

*Phoenix RECESSED LEDs... Help to define deck borders and increase safety for family and friends enjoying your deck after dark!*

# THE COSMIC

# THE TITAN

Uses Only...  
**1.6 WATT!**

**CLASSIC LANTERN STYLE... *The Titan Light***  
Has the classic appeal of a lantern light with updated style. It comes standard with heavy ribbed glass panels. Crystallized glass can be purchased separately for another distinctive look.

**LOW VOLTAGE LIGHTS:**  
Offers widest range of lighting styles and colors.

**LINE VOLTAGE LIGHTS:**  
Require a connection to 110 volt source which makes these lights the brightest of all.

**AN ARRAY OF OPTIONS...**  
The Titan is available in both line voltage and low voltage styles, and includes a warm white LED bulb. See the chart for colors, sizes, and lighting source options.

**Legends:**

- S = Standard Stock Light
- \* = Requires Conversion Base
- (48) = 48 Hour Lead Time

(Note: 5-1/2", 6" & 6-1/2" are 4.8W lights)

Legends: S = Standard Stock Light (48) = 48 Hour Lead Time

**NEW Walnut COLOR... AVAILABLE July 2016!**

### THE TRITON OPTIONS...

The Triton comes standard with our frosted glass, which adds a soft glow of light throughout the night. This light is only available in our low voltage styles.

See the chart for available colors and sizes.  
Also available in a Solar option on page 5.

Uses Only...  
**1.6 WATTS!**

# THE ORION

**GEOMETRIC DESIGN ELEMENT... *The Orion Light***  
 Is the first of Aurora's Deck Lights that uses a geometric shape in front of the glass creating a new element of design. This new concept makes the Orion Light a beautiful accessory that adds another level of distinction, regardless of the time of day.

**LOW VOLTAGE LIGHTS:**  
*Offers widest range of lighting styles and colors.*

**LINE VOLTAGE LIGHTS:**  
*Require a connection to 110 volt source which makes these lights the brightest of all.*

**A SOLID DECISION...**  
 Made of solid cast aluminum.  
 See chart for size and color.  
 Includes a long lasting warm white LED bulb.

**Legends:**

Require a connection to 110 volt source which makes these lights the brightest of all.

# THE SIRIUS

## A MYRIAD OF COLORS...

The Sirius Deck Light comes in six powder coated colors that coordinate beautifully with wood, composite decking, or vinyl deck and fence materials.

## TRADITIONAL PYRAMID DESIGN... *The Sirius Light*

Available in both low voltage and line voltage, the Sirius light has a traditional appeal with its pyramid-shaped design of solid aluminum. The crystallized glass of the Sirius is a standard feature that creates a flicker-like swath of warm white LED lighting. Ribbed glass can be purchased separately for a different lighting look.

Horizontal Rail Adapter

Warm White & Cool White LED Bulbs

12 & 18 Gauge Low Voltage Wire

Pigtails

Transformers

## COLOR OPTIONS

MATTE BLACK

BLACK

WHITE

BRONZE

CLAY

TAN

WALNUT

## WIRING INSTRUCTIONS

AURORA DECK LIGHTING OFFERS A PROPRIETARY PIGTAIL CONNECTOR, WHICH CONNECTS THE LIGHT FIXTURE TO THE MAIN LOW VOLTAGE LINE!

This simple to use connector is self piercing and requires no cutting or splicing. Provides a long lasting and weatherproof connection. Available in 12", 60" and 96" depending on post length. Order one per light.

Unscrew the pigtail housing, press in place the 12 volt main line across the two metal piercing connectors, so that the metal piercing connectors make a good contact with the wire. Run the pigtail wire up the post, and connect (snap) the deck light leads to the pigtail leads. This pigtail can be buried, installed in the railing, or in the joist structure. Place the deck light onto the post and screw the deck light to the post using the two screws provided.

# YELLOW STAR SOLAR SYSTEM

## *THE Solar Powered Lighting System...*

Is perfect for Green Building Solutions, piers, boat houses, horse barns or remote structures!

## *AN AFFORDABLE SOLAR POWERED LIGHTING SOLUTION...*

For decks, railing, barns, out buildings, and other remote structures, all powered by the sun!

## *THIS Green Building Solution...*

Allows for a variety of light source options from Aurora, including LED strip lights, tiny recessed LED lighting, and Aurora's Decklights incorporating the LED bulbs.

## *THE "STAR" OF THE SYSTEM...*

Is the multi-crystalline solar panel that is small enough to be easily mounted to any structure's exterior, or be mounted to a 2<sup>1/2</sup>" steel post, with southern exposure. The panel measures 24" x 30" and will provide reliable solar power for hours of continuous lighting. A timer allows for automated operation.

## *OTHER Aurora Light Options...*

Can also be operated with the Yellow Star Panel System, making it one of the most exciting new products on the market for adding a range of lighting!

The system comes complete with the Yellow Star Solar Panel, control panel and battery housing, 12Ahr sealed cell battery, and mounting hardware.
